MESSAGE

It is my pleasure to humbly invite you to attend the **International Virtual Conference** on “**COMBATING INDUSTRIAL CHALLENGES DURING COVID_19**” (IC-CICDC19-2020) on 8 August 2020 Organized by Indore Management Institute & Research Centre, Indore.

This year’s conference will attract attendance from all around the world; the distinguished speakers are from the top notch academic institutes as well as leading all industries from all around the globe. This conference will provide the opportunity and exchange of ideas related with the nuts and bolts as well as the challenging issues concerning within the fields.

Participation from successful entrepreneurs and industry leaders at the Conclave, would act as a guiding light to the enterprising youth, who would be soon embarking on their career paths. I am happy to note that Entrepreneurship Summit, Leadership Lectures and Innovation Exhibition are being organized as a part of Conclave.

I wish all the success of this International Conference.

MESSAGE

I welcome you in the **International Virtual Conference** on “**COMBATING INDUSTRIAL CHALLENGES DURING COVID_19**” (IC-CICDC19-2020) on 8 August 2020 Organized by Indore Management Institute & Research Centre, Indore.

On behalf of the Executive Committee of RFI, I wish to thank all the authors, invited lecturers, session chairman, members of the International Scientific Committee, National coordinators and numerous others who helped to shape the content of this conference. I would also like to thank organizational committee members, whose administrative and organizational works were the prerequisite for a successful conference.

Thank you for joining us on this momentous occasion.

Dr. Sourabh Jain

Chairman

Research Foundation of India

MESSAGE

As Dean, of Indore Management Institute & Research Centre, I take great Pride in welcoming all the attendees of the International Conference on **“COMBATING INDUSTRIAL CHALLENGES DURING COVID_19” (IC-CICDC19-2020)**”.

I am sure that the conference of this type will inculcate the much needed research culture among the students and teachers and trigger Interact actions among researchers to exchange the ideas of recent advance in the area of research, Humanities & Management, Economic, Computer and communications.

I wish the conference a grand Success.

MESSAGE

Dear Distinguished Colleagues, Precious Academicians and Our Research Professionals,

As Vice-President of Research Foundation of India, firstly, it is my pleasure to welcome one and all to participate in this significant and prestigious event. On behalf of the Organizing Committee, it is honours of the hosting you at India.

Conferences have a great platform for global networking. I want to thank all of you who have worked on putting our extraordinary conference together; I would also like to express my appreciation to the Research Foundation of India for elegant configuration.

Participation from successful entrepreneurs and industry leaders at the Conclave would act as a guiding light to the enterprising youth, who would be soon embarking on their career paths. I wish you all the success for this International Virtual Conference.

MESSAGE

Dear Attendees IC-CICDC19-2020,

It is my pleasure to welcome you to this highly informative conference. It is a very exciting time to be in sustainable development. Having served many years in these events I can say it is the most active and promising time I have experienced. I hope you learn more about the evolving sustainable development in institute and industry, and take away key insights and information from the conference.

I extend my warm greetings and felicitations to the organizers and the participants and wish the Conclave all success.

A FORECASTING STUDY ON ELECTRICITY CONSUMPTION IN INDIAN TEXTILE INDUSTRIES: AN ECONOMIC ANALYSIS

¹T. Amose, ²Dr. N. Sreedevi, ³Capt. Dr. KR. Jeyakumar

¹Ph.D Research Scholar, Research Department of Economics, Arumugam Pillai Seethai Ammal College Affiliated to Alagappa University, Karaikkudi

²Assistant Professor, Research Department of Economics, Arumugam Pillai Seethai Ammal College Affiliated to Alagappa University, Karaikkudi

³Principal & Associate Professor, Research Department of Economics, Arumugam Pillai Seethai Ammal College Affiliated to Alagappa University, Karaikkudi

Abstract:- Electricity as an important input plays a vital role from each and every economic movements for the development of the country at global level. Textile industry is not differed from this context; it provides outputs to trade at International markets. In India, textile industry is one among the important industries which supports economic development and trade balance. Hence, supply and demand for electricity in Indian textile industries are the signified economic processes to attain maximum output. Hence, the study emphasised electricity consumption and its cost which effects from consumption per unit of electricity for the Indian textile industry. This study brought out secondary data collected from various published articles and reports. It covers 30 years of forecasted data collected from 2001 to 2030 (Estimated). And data have been analysed by statistical tools such as correlation and regression. Findings of the study has highlighted that there is close relationship within and between the dependent and independent variables. Finally, the study has been concluded with effective policy recommendations with an overview of study.

Keywords: Electricity, Consumption, Cost, Production, Textile.

IC-CICDC19-2020/153

HEALTH SECTOR IN INDIA – A STUDY

¹Dr. Seema Jhala

¹Assistant Professor, Indore Institute of Management and Research

²Ms. Manpreet Kaur Khurana

²Assistant Professor, Indore Institute of Management and Research

Abstract:- At the outset of Covid 19, the concern of health care started hovering around the Indian government and people due to the shortage of medical facilities. India is a highly populous country with high density of population. Indian economy is one of the fastest growing economies, with the increase in income; people s demand for quality health facility from government also increases. According to the Lancet report (2018), India s ranking in health sector is 145 among 195 countries regarding accessibility and quality. India s pharmaceutical sector is one of the largest exporters of generic drugs all over the world and having 17 health insurance schemes. This paper tries to understand despite having high growth rate and having favorable environment for pharmaceuticals companies why health sector is poor in India. The study reveals that there is shortage of Doctors and Nurses in India, there is lower expenditure in health sector and high private medical fees. The definition of poverty line excludes many vulnerable people from the access of subsidized health facility, like health insurance.

IC-CICDC19-2020/154

COMPARISON OF TAX AWARENESS BASED ON THE DEMOGRAPHIC CLASSIFICATION AND ASSESSMENT OF THE IMPORTANCE OF TAX LITERACY IN INDIA – AN EMPIRICAL ANALYSIS

¹Manpreet Kaur Khurana, ²Suraj Sharma

¹Assistant Professor

²Assistant Professor, Indore Institute of Management and Research, Indore

Abstract:- Purpose: The purpose of the study aims to have a comparative analysis of tax awareness, knowledge among males and females in our country. The paper will also focus

on the percentage of males and females contributing towards one of the most important sources of Government revenue generation which is particularly the direct taxation based on their income classification. It will also address the need of tax literacy among people in India and how to increase such knowledge. Tax awareness is an important component of tax plan. In India, tax on personal income takes away foremost part of earned income. As every individual assessee who have earned yearly income which is more than a limit as prescribed by the income tax law is liable to pay tax.

Design/methodology/approach: This study is undertaken to know the tax awareness and knowledge among males and females in India. Here data have been collected from 84 males and 84 females through self structured questionnaire. With the help of chi - square test we will test the different hypothesis framed. With the help of Pie charts, we will highlight the percentage of respondents who are actually disbursing tax to the government. The level of tax literacy among respondents is depicted with the help of pie charts.

Findings: In the whole study, we observed that females are more aware on the different parameters considered in the study except in case of tax awareness in respect of the due date of TDS returns and audit requirements. We also found that 86% of the respondents feel that tax literacy. In this paper, we have also summarized the tax awareness level among respondents in terms of percentages in respect of different parameters considered in the study.

Keywords: Tax awareness and knowledge, Tax literacy, Income level, Gender classification, Tax planning.

IC-CICDC19-2020/156

COVID-19 IMPACT – A MIX OF CHALLENGES AND OPPORTUNITIES IN HIGHER EDUCATION

¹K. Naveen Kumar, ²M. Hymavathi,

¹M.Com., MBA, Assistant Professor, Department of Commerce, Villa Marie Degree College for Women, Somajiguda, Hyderabad

²Assistant Professor, Villa Marie Degree College for Women, Somajiguda, Hyderabad

Abstract:- In the middle of March, the central government of India announced the closure of schools and colleges temporarily as a precaution to curb the spread of the novel corona virus. As the days pass by there is no immediate solution to stop the outbreak of this health crisis. The pandemic has greatly impacted the higher education sector which is a critical determinant of a country's economic future. This is a critical time for the education sector to handle the situation like, to conduct board examinations, admissions, entrance tests for various universities. There is a need to restructure the education system. One immediate measure is essential to ensure continuity of learning in the education sector like Government, private, and universities using technology like Video Conferencing software, and Learning Management System. This new trend in the education system can give rise to different opportunities and to be faced. This is the ideal time to explore opportunities and create a resilient educational system. The present research paper concentrates on opportunities and challenges in the education system in India.

Keywords: Education, Learning Management System, teaching, learning, educational system.

IC-CICDC19-2020/157

ROLE OF PLASTIC MONEY IN CASHLESS ECONOMY

¹Veronika Bhagoria, ²Dr. Sarita Rana

¹Research Scholar, School of Commerce, Davv, Indore

²Assistant Professor, St. Paul Institute of Professional Studies, Indore

Abstract:- Cashless economy simply refers to the economy where maximum transactions made are without using cash in physical form but in the digital form like credit cards, debit cards, e-wallets and electronic fund transfer (ECS, NEFT, RTGS, USSD, UPI, Aadhar based payment system etc.). Cashless economy is beneficial in many ways for the growth of the country. Plastic money is part of cashless economy which means use of cards for the

transactions instead of cash. The payments are made with the help of cards by the people of the country. Various types of cards are available in the market as per the convenience and liking of people. Here under this research the main purpose is to enlighten the role of plastic money in making the economy cashless and how it plays a major role in the economic growth.

Keywords: cashless economy, plastic money, debit card, credit card.

IC-CICDC19-2020/158

ONLINE TEACHING AND LEARNING TECHNOLOGY IN EDUCATION IN POST COVID 19 PANDEMIC SITUATION – A SWOC ANALYSIS

Dr. Shobhana Jain

Assistant Professor and Head of Commerce Department
Shree Cloth Market Institute of Professional Studies, Indore (M.P.)

Abstract:- The Covid 19 Pandemic has reshaped the way of teaching and learning in education system worldwide. E-learning tools and resources are being used by several educational institutions during the pandemic. Now it's necessary to carry out a SWOC-strength, weakness, opportunity and upcoming challenges- ANALYSIS of online teaching and learning technologies in post covid-19 situation and its importance in education. The final result consists of the synthesis of weaknesses and challenges as a basis of reflection and reporting for the administrative strategic management to the problem of e-learning educational services in the perspective of their optimization and suggestions and recommendations made for cracking opportunities to set new goals and objectives and move forward effectively for the betterment of the education industry through literature review analysis.

Keywords: Online teaching and Learning Technology, SWOC Analysis, Covid 19.

IC-CICDC19-2020/159

STUDY ON E-WAY BILL SYSTEM UNDER GST AND ITS PROCESS

¹Prachi Chourasia, ²Dr. Sarita Rana

¹Research Scholar, School of Commerce, Davv, Indore

²Assistant Professor, St. Paul Institute of Professional Studies, Indore

Abstract:- India, a fast-growing nation, faces the problem of tax evasion in key areas of the economy. A new digital reform as part of the Goods and Services Tax implementation in India, named as E-Way bill. Implementing the Bill E way system will have an effect on the economic system as the GSTN definition becomes more transparent, the new digitalization strategy will provide a number of advantages for those participating and will protect the government's interest. The GSTN system will be more transparent. This study is a theoretical analysis of the E-way bill system that has been adopted in India and is focused on secondary data gathered on different websites. The research also focuses on the process and its importance. The study found that the E-Way bill was a good step by the Indian government to enable goods, both inter-state and intra-state, to be transported, thus completely avoiding the space of tax evasion. To a large extent, the e-way billing system ensures transparency in the transit of goods and changes the image of the country as a whole by transforming the methods of verification and validation of the authenticity of transactions. It had been shown that corruption was minimized by the absence of human intervention.

Keywords: GST, Goods and Services Tax, E-way Bill, EWB.

IC-CICDC19-2020/162

A STUDY OF AWARENESS ON HIV/AIDS AND STIS IN RURAL PEOPLE OF KADI AND BAHUCHRAJI BLOCKS OF MAHESANA DISTRICT, GUJARAT (INDIA)

¹Suresh Chavda, ²Dr. Mayuri Farmer

¹Ph.D. Scholar, Centre for Studies in Rural Management, Department of Management and Technology, Gujarat Vidyapith, Gandhinagar, Gujarat (India)

²Professor, Centre for Studies in Rural Management, Department of Management and Technology, Gujarat Vidyapith, Gandhinagar, Gujarat (India)

Abstract:- The present study is a part of PhD study and the aim of study was to identify knowledge of HIV/AIDS and STIs among the rural population of two blocks of Mahesana district, Gujarat. India has committed to eliminating parent to child transmission of HIV and achieving 90-90-90 target by 2020 and to end AIDS by 2030. In this regard, if people do not know proper and correct knowledge regarding HIV/AIDS then how they will go for HIV testing and how India will get their first 90 as by 2020? To have this answer, this present study undertaken. The study constricted to 203 respondent (103 Female and 100 Male) from 13 villages of two blocks. Age group of respondent was between 19 years to 52 years. 71.5% of respondent know that HIV is preventable, among them male were 81.6% and Female were 61.8%. 12.8% rural population having comprehensive knowledge of HIV/AIDS. 37.1% respondent had suffered from STIs in last 12 months, among them 24.5% were visited government hospital for treatment. National Rural Health Mission program needs to be more intensively focus on HIV/AIDS and STIs issues for Rural Population for stigma and discrimination free environment for PLHIV and minimize the prevalence rate of HIV infection.

Keywords: HIV, STI, Stigma, Discrimination, Rural.

IC-CICDC19-2020/163

A STUDY OF CONSUMERS PURCHAE DECISION FOR GARDEN TOOLS

Dr. Haldhar Sharma

Assistant Professor Department of Commerce, Medi-Caps University, Indore MP

Mr. Sandeep Goyal

Ph. D. Scholar, Pacific Academy of Higher Education & Research University, Udaipur

Abstract - The study revealed that age has an impact on factors considered before purchasing the garden tools. The highest inclined is shown by the age category above 60 years and rest are as follows in descending order 40-60 years, 25-40 years and 18-25 years. The study advocate that age has an impact on the brand before purchasing the garden tools. The highest inclined is shown by the age category between 40-60 years and rest are as follows in descending order 18-25 years, 25-40 years and more than 60 years. The study clarify that income of respondents has an impact on expenses on garden tools. The highest inclined is shown by the income category of more than Rs. 100000 per months followed by in descending order of respondents having income between Rs. 60000-100000 and so on respectively.

IC-CICDC19-2020/164

**A STUDY OF POSITIVE IMPACT ON RELATION BETWEEN ORANISATIONAL CLIMATE AND ORGANISATIONAL COMMITMENT
(With special reference to Academic Institution)**

Prof. Shraddha Sengar

Assistant Professor, GSB College Indore

Introduction - Organization climate is defined as a set of perceived attributes of an organization and it's subsystems as reflected in the way an organization deals with its member's, and issues. Organization climate can be defined as a relatively enduring quality of the internal environment that is experienced by the members, influence their behavior and can be described in terms of values of a particular set of characteristics of the

organization. In the field of organizational behavior and industrial/organizational psychology, organizational commitment is, in a general sense, the employee psychological attachment to the organization. It can be contrast with other work related attitude such as job satisfaction defined as an employee's feeling about their job, and organizational identification, define as the degree to which an employee experiences a "sense of oneness" with their organization. Commitment is the function of inherent sincerity of an individual, which develops the capacity to work hard and give good results even in poor and adverse circumstances. Effective employees consider commitment as both, the aspect of an individual and organizational importance. The person who is committed towards his job works with sincerity and honesty and efficiently sustain hard work which gives him internal satisfaction of pulling his optimum strength into work with genuineness. According to Mowday et al (1979) organizational commitment refer to the extent to which the employee demonstrate a strong desire to remain the member of the organization, the degree of willingness to exert high level of efforts for organization and belief and acceptance of the major goals and values of the organization. Mathieu and Zajac, (1990) has defined organizational commitment in several ways that signifies a bond between the individual and the organization. This study will show the relationship between organizational climate and organizational commitment.

PATANJALI AYURVEDA DOES HAND HOLDING OF BANKRUPT RUCHI SOYA

Dr Rachna Kaul

Assistant Professor, Amity Global Business School

Introduction - Over the years Ruchi Soya emerged as India's one of the largest makers of edible oil in India. The modest oil seeds proved to be its major boon. In the 1980s in Indore from an unostentatious commencement, Ruchi Soya paved the way on to grow soya chunks brand Nutrela into a household name. Among the top 250 consumer products companies Ruchi Soya bagged 175th rank in the "Global Powers of the Consumer Products Industry 2012", according to a report published by Deloitte Touche Tohmatsu (Deloitte). From end to end in India Ruchi Soya Industries Limited and its subsidiaries, occupy the production and trade of edible oils. They are market leaders with offerings from vanaspati, fats, and soya products. Along with soya chunks, granules, soya flour and soya bean processing by products are also key business areas. Ruchi group is also into exports of Agri-Commodities like raw cotton. It sources raw material directly from its close business allies, located at different locations throughout India. Ruchi group exports agri-commodities to various buyers, mills, and trading companies across the world. The company runs its seed business by extracting numerous varieties of seed. The company deals in other products like textured soy protein, soya flour, fruit juice, soya milk to name a few. The group also has plant & machinery (equipment), grains and FMCG products like gram, wheat, rice, maize, shorgum, seeds, coffee, soap, fresh fruit bunch, and seedling. In the year 2010, Ruchi group made Ruchi Industries Pvt. Ltd which is a wholly subsidiary. It also has a Singapore unit which engages in plantations and processing businesses and also acquisitions & investments in plantation companies etc.

Ruchi group was beaming with success on all fronts till they stepped into castor seed business. Castor oil extraction business resulted into the biggest tormentor. Though soyabean and palm oils constitute majority of Ruchi Soya's edible oil business and castor seed was a less significant portion of the pie. What made such a big edifice fall like pack of cards. This case tries to get into crux of the reasons for Ruchi soya to touch the ground. There is also an important player Patanjali whose role as a saviour comes into play.

**SOCIAL SECURITY POLICIES AND PRACTICES FOLLOWED IN LIC OF INDIA WITH
SPECIAL REFERENCE TO INDORE CITY**

Mrs. Ranjita Das Soni

Assistant Professor, IMIRC, Indore

Dr. Sanjay Sharma

Associate Professor, IIMRC, Indore

Abstract- In todays competitive world and modern life style of the people Social security is seems to be a universal need. It is fundamental human right as recognised by every individual, and it is also one of the important pillars in the Constitutions of the International Labour Organisation. In the General Comment no 19 (2007) on the Right to Social Security the UN Committee on Economic, Social and Cultural Rights clarified that the right to social security as "There is a right to every individual to gain and have social benefits, may be in cash or any kind, with no discrimination for the security against loss of work related income done by sickness, disability, maternity, injury at the time of employment, unemployment, old age, or death of a family member, unaffordable access to health care, and limited family support, specially for children and adult dependants. Many countries acknowledged and executed this concept, it was experienced that there is a need of instruments for social existence in the world wide. It is considered as one of the most important instrument for each and every individual safety and stability. It is one of the investments for an individual in long run instead of burden. It is one of the main function of HRM to examine and analyse the role, scope and benefits of social security measures, if the organization wants to increase its efficiency. To get the all clear images questionnaire and interview method was done, so that all the indicators like awareness, implementations, obstacles related to social security and consequences on effectiveness of organization, relationship between employee and employer relations should be determined. The present study is determined about the measures of social security in human resources (diverse employees) and its role and benefits provided by the LIC of India with special reference to Indore city.

A COMPARATIVE STUDY ON APPLICATION OF HUMAN RESOURCES INFORMATION SYSTEMS IN IT AND BPO SECTOR POST COVID-19

Dr. Ashok Jhawar

Principal, Acropolis Institute of Management Studies and Research, Indore

Ms. Dipti Malpani

Manager HR, 1Poin1 Solutions Ltd., Indore

Dr. Ajay Malpani

Faculty, Prestige Institute of Management and Research, Indore

Abstract - A professional perspective in IT and BPO industry says that, after the pandemic Covid 19 situation, the major focus will be on providing services remotely. The most important aspect in order to keep their businesses afloat is the safety of their employees. Now the situation in both IT and BPO sector has been seen differently after the Covid'19. Earlier it was locations, people, center or city specific. Now, there are no specifications as the employees don't want to move from their location due to the fear of pandemic. Same way, the companies want to keep their workforce motivated with the same enthusiasm by giving them life protection at their end. In this regard, the role of HRIS has become very crucial. Human Resource Information Systems is a type of management systems that comprises of all the functions of human resources from man power planning, to managing to the development to designing strategies and leading to improvisation of core competencies of the employees that would off course gives competitive advantage to the company. This paper investigated the application of Human Resources Information Systems (HRIS) in IT and BPO sector. The study is primarily focused on collecting data through a structured questionnaire from the employees of IT and BPO sector and analyzing it for a fruitful outcome which defines the proper role of HRIS. Researchers have analyzed the data using statistical software and applied different tools to test hypothesis, reliability, sample adequacy, correlation and association between dependent and independent variables in order to meet the objectives of study. The study reveals that application of HRIS found varied among IT and BPO sector.

Keywords: HRIS, IT, BPO, application, Covid'19, HR etc.

THE FUTURE OF MACHINE LEARNING IN EDUCATION

Prof. Ranjana Dalwani Arora

Indore Management Institute and Research Center

Abstract - Nowadays, Machine Learning (ML) is during a one among standalone in every of' one among the foremost promising application areas in a field of data Technology where its application scope is nearly unlimited. The appliance of machine learning in an education area is currently very interesting to researchers and scientists, and it's the most focus of our study. The machine-learning framework entails capturing and maintaining an upscale set of data and reworking it into a structured knowledge domain for various uses in various fields. Within the field of education, teachers can save time in their non-classroom activities by adopting machine learning. for instance, teachers can use virtual assistants who work remotely from the house for his or her students. This type of assistance helps to reinforce students' learning experience and may improve progression and student achievement. The aim of this paper is to gauge the possibilities of applying and using machine learning within the education area. This paper identifies and analyses suitable literature, research papers and articles so as to work out their categorization within the field of education, to work out the current trends of using machine learning in education, and to work out its current and Future applications.

**THE IMPACT OF TRAINING AND DEVELOPMENT ON FEMALES EFFECTIVENESS WITH
SPECIAL REFERENCE TO EDUCATION AND BANKING SECTOR IN INDORE REGION**

Mragakshi Tiwari

(Assistant Professor), Medi-caps University

AbstractPurpose: The main aim of the study is to investigate the impact of training and development program on female effectiveness in the banking and educational sector. Most of the research has been done just to check or identify the employees effectiveness and organizations productivity which helps employees and organization to fulfill its desired outcomes. The study do not found the effectiveness of training and development program on the female effectiveness as female are found to be less or equal to men in the organizations and how much this training program affects women effectiveness in performing and handling the task/work in the organizations.

Design/Methodology: The data were collected from 152 female employees who work in educational and banking sector. The reliability of the data has been checked (+0.827) although the study use authentic scale of some authors. The study applied the statistical tool to measure the variable by applying Frequency, factor analysis and chi-square.

Finding: The finding reveals that there is impact of training and development on female effectiveness. Although women have to face a lot of hurdles in performing family responsibilities along with their career. Training and development helps her in enhancing their competences level in the workplace.

Gap & Future work: Although the study was successful conducted but the sample size is small in number (152). Further the study will take the large sample with different geographical areas. The data were collected from female employee only. In future the data will be collected by both the gender so to know the impact of training and development on female effectiveness.

Originality/Value: The study explore a insider views and provide fresh perspective of women towards the training and development which helps in enhancing their career in educational and banking sector in Indore region.

Keywords: Training and development, female effectiveness, education and banking sector.

**A STUDY ON NON PERFORMING ASSETS(NPA) RECOVERY THROUGH LEGAL TOOLS
POST COVID-19**

Abhiraj Singh Chauhan

(Asst. Professor, S & S Law College)

Abstract - Banks plays a very crucial role within the economic development of any nation. Banks are the growth-drivers for any country and therefore the banking business is exposed to varied risk, like credit risk, liquidity risk, interest risk, market risk, operational risk and management risk. Apart from these risks the vital risk is recovery of the loans. The sound financial position of a bank depends upon the recovery of loans or its level of Non-performing assets (NPAs). Reduced NPAs generally gives the impression that banks have strengthened their credit appraisal processes over the years and growth in NPAs involves the need of provisions, which bring down the overall profitability of banks. The Indian banking sector is facing a significant problem of NPA. The Corona virus that emerged in Wuhan (China) has negatively affected all the countries and their economies whether big or small. Hence the impact can be felt all over and because of it the risk of recoveries for financial institutions has tremendously gone high. The legal tools which are available for recoveries are limited and it would be a more difficult now to recover due to this pandemic situation. This article analyze the recovery mechanism of NPAs with its three important wings i.e. recovery through Lok Adalat, DRTs and SARFASEI and its impact especially after the post covid-19 situation. The study is purely based on Secondary data collected from RBI data warehouse. The study finds that overall recovery mechanism in banking industry is very poor. Among the three wings recovery through DRTs is better than other two.

Keywords: NPA, Banking Sector, Lok Adalat, DRTs and SARFASEI.

**A STUDY ON AWARENESS AND INVESTMENT PATTERN OF TAX SAVING
INSTRUMENTS OF AN INDIVIDUAL TAX PAYER**

Reena Gupta

Assistant Professor, IMIRC, Indore

Sanjay Sharma

Associate Professor, IMIRC, Indore

Abstract - “Tax is what we pay for civilization and with tax, we buy civilization” Golden words of Justice Holmes. Income tax is a compound Tax that is paid on over all incomes received by, accruing, or arising of a taxpayer during a particular year. When the Tax rate goes high due to the remodeling in the various provisions of income tax act, Tax planning plays an important role to decrease the tax amount. Tax planning can be defining as assessment of one’s financial affairs without infringement the legal provisions of income tax

act. It decreases the burden of tax amount of a taxpayer by taking the full advantage of deductions, exemptions, relief and rebates under the act. The problem of income tax is that taxpayer is not aware about all these deductions and provisions to reduce his tax liability. Actually, the deductions, exemptions, rebates and reliefs have been available by the law to attain certain economic and social goals of the country. This study aims to know the most suitable tax saving instrument applied to save tax and to know the amount saved by using that instruments by the individual in Indore. Overall findings of the study reveal that deduction under 80D is the most adopted tax saving instrument and 80C is the second most adopted tax saving instrument.

A STUDY ON PHISHING ATTACK DURING THE COVID-19 LOCKDOWN

Mr. Mohit Raikwar

Assistant Professor, IMIRC, Indore

Ms. Sona Parani

Assistant Professor, IMIRC, Indore

Abstract - Phishing is a mendacious attempt for gathering the sensitive information like debit Master Card, net banking other secure details, user names and passwords. A standard approach in phishing is thru the utilization of messages and email communication with an embedded hyperlink. The detection and mitigation of phishing attacks are a big challenge because of the complexity of current phishing attacks. Existing techniques are often too time consuming to be utilized in the real world in terms of detection and mitigation time. Phishing is becoming more malicious during covid-19 lockdown and its detection and awareness is extremely important. Objective of this paper is to develop more security and protection requires by both users and enterprises towards the safe services. We discuss sorts of phishing, phishing attack impact during the covid-19 lockdown and methods to teach and train users against phishing.

Keywords: Covid-19 lockdown, phishing, two-factor authentication (2fa), security.

COVID - 19 AND EDUCATION SECTORS IN INDIA - CHALLENGES AND OPPORTUNITY

Aditya Narayan Mishra

Assistant Professor, (S & S LAW College, Indore)

Abstract - The spread of pandemic Covid-19 has radically disrupted each part of human life including education. It has created an unprecedented test on education. In various educational institutions around the world, campuses are closed and teaching-learning has moved online. Everyone has the Right to Education as a basic Human Right. It is necessary for the development of a human. It is an obligation on the government to provide education to all citizens. It is included in the Right to Life which is provided under Article 21 of the India Constitution. No individual can be assured of human dignity unless his personality is developed and the only way to do that is to educate him.

The 42nd Constitutional Amendment Act, 1976 included the subject "Education" in the Concurrent List of the Indian Constitution. There are lots of challenges in India to access free and compulsory education. This Paper point out the challenges in providing education to all. In this Paper, we will also discusses the constitutional provision to Right to Education and this article also highlights on major impacts of Covid-19 on Education Institutions in India.

शोध सारांश:— किसी भी संस्था का संचालन और सम्पूर्ण विकास उसके पूँजी के स्वरूप या प्रकार के निर्धारण से सम्बन्धित होता है संस्था की कुल पूँजी का कुछ भाग सम अंशों में कुछ भाग पूर्वाधिकार अंशों में और ऋणपत्रों एवं बन्धपत्रों में वितरित किया जाता है वित्तीय प्रबन्धक द्वारा इन विभिन्न प्रतिभूतियों के बीच पारस्परिक अनुपात का निर्धारण अनेक मान्यताओं एवं परिस्थितियों के संदर्भ में किया जाता है वित्तीय प्रबन्धक द्वारा प्रतिभूतियों के बीच अनुपात निर्धारित करते समय अनेक तथ्यों को ध्यान में रखा जाता है। अतः पूँजी ढाँचा इस प्रकार का होना चाहिए कि व्यवसाय के स्वामियों के हितों की सुरक्षा हो सके और उन्हें अनुकूलतम आय हमेशा मिलती रहे अतः उचित पूँजी ढाँचे के निर्माण हेतु पूँजी संरचना का विश्लेषणात्मक अध्ययन एवं प्रबन्धन अति आवश्यक है।

अध्ययन का प्रारंभ पूँजी संरचना की प्रस्तावना, अध्ययन का औचित्य, साहित्य का पुनर्वलोकन और उद्देश्यों के साथ किया गया है शोध प्रविधि, आँकड़ों का विश्लेषण एवं निर्वचन, निष्कर्ष एवं सुझाव अध्ययन के अन्तर्गत शामिल है मध्यप्रदेश राज्य नागरिक आपूर्ति निगम के आय विवरण तथा स्थिति विवरण के आधार पर आँकड़ों का विश्लेषण किया गया है तथा विभिन्न अनुपातों के आधार पर यह दर्शाया गया है कि किसी संस्था अथवा कम्पनी में पूँजी संरचना का निर्माण किस प्रकार किया जाता है। जिससे एक आदर्श पूँजी ढाँचे का निर्माण हो सके।

शब्द कुँजी:— ऋण समता अनुपात, स्वामित्व अनुपात, शोधन क्षमता अनुपात, पूँजी संरचना।

प्राचीन साहित्य, अनुशासन एवं समय पालन का वर्तमान शिक्षा प्रणाली में महत्व का अध्ययन

डॉ वंदना मिश्र, (सहा. प्राध्यापक)

डॉ मनीष दुबे, (सहा. प्राध्यापक)

श्री वैष्णव वाणिज्य महाविद्यालय, इंदौर

सारांश— प्रस्तुत शोध पत्र में अनुशासन एवं साहित्य की प्रासंगिकता को प्रतिपादित करने का प्रयास किया गया है। अनेक सीमाओं एवं कठिनाइयों के कारण यद्यपि प्रस्तुत अध्ययन काफी संक्षिप्त है, फिर भी जो तथ्य सामने आए हैं वे किसी सीमा तक अध्यापकों एवं समाज का मार्गदर्शन कर सकते हैं। किसी भी वैज्ञानिक शोध का उद्देश्य निष्कर्ष प्राप्त करना है, इसी क्रम में कुछ निष्कर्ष का संकलन तथा सारांश का सामान्यीकरण करने के लिए संतुति प्रस्तुत की जाती है। यदि शिक्षा के क्षेत्र में खोए हुए प्राचीन गौरव को प्राप्त करना चाहते हैं तो जीवन पर्यंत अपने ज्ञान के क्षेत्र में वृद्धि करने के लिए अनुशासन व समय पालन की महत्वता की पुनर्स्थापना के लिए प्रयासरत रहने की आवश्यकता है।

सभी कालों में शिक्षा व साहित्य समान रूप से प्रभावित तत्व रहा है। प्राचीन भारतीय शिक्षा व्यवस्था में अनुशासन व साहित्य का अत्याधिक महत्व है। यह सर्वमान्य है कि इस वर्तमान शिक्षा व्यवस्था में समाविष्ट करके ही भ्रातृको विश्वगुरु बनाए रखा जा सकता है जिसमें साहित्य महत्वपूर्ण भूमिका का निर्वाहन करता है।

कुँजी शब्द — पुनर्स्थापना, विश्वगुरु, समाविष्ट।

प्राचीन भारत में सामाजिक एवं धार्मिक चेतना का स्वरूप

Rakesh Kumar

Research Scholar, Dept. of History, Jai Prakash University, Chapra

सारांश :- चेतना के कारण मानव मन सहज प्रतिक्रिया करता है। मानव में चेतना निरंतर विकसित होती रहती है। जैसे-सामाजिक एवं धार्मिक चेतना। जो प्राचीन से अब तक एक गंभीर अध्ययन का विषय वस्तु रहा है।

समाज में मानव के जीवन से संबंधित कार्य सुचारु रूप से चलते रहते हैं। सामाजिक चेतना शब्द समाज और चेतना इनदोनों शब्दों से बना है। प्राचीन भारतीय समाज में रहनेवाले लोगों का एक सार्वजनिक उद्देश्य होता था जो सहयोग की भावना से प्रेरित रहता था इन महत्वपूर्ण विचारों को केन्द्र में रखकर ही सामाजिक चेतना को परिभाषित किया जाता था। जनमानस में अपने निर्दिष्ट उद्देश्य के प्रति जागरूकता का अभाव रहता था।

प्राचीन भारत में लोगों का सामाजिक एवं धार्मिक विकास वेदों के अध्ययन पर भी निर्भर करता था। वेदों के आधार पर एवं इनके अध्ययन के अनुरूप मानव एवं मानव समाज प्राचीन काल में मुख्यतः भारत में, जिसे आर्यावर्त की संज्ञा दी जाती थी का स्वरूप प्रभावित होता था। वेदों के अध्ययन से प्राचीन भारत को व्यक्तियों में शुद्धता एवं सौम्यता के साथ ज्ञान का भी प्रादुर्भाव हुआ। प्राचीन भारत के लोगों का जीवन, रहन-सहन, शिक्षा-दीक्षा एवं उनकी चेतना का स्वरूप धीरे-धीरे बदलता रहता था। अतः उसे प्राचीन भारत में वैदिक युग भी कहा जाता था। प्राचीन भारत के मानव में आर्थिक एवं वैश्विक चेतना का भी अभाव रहा है। परन्तु प्राचीन भारत में विस्तारवादी नीतियों के अनुरूप क्षेत्र विस्तार का कार्य हुआ।
