PARADIGM SHIFT TO E-LEARNING

With IMI your learning must never stop!

Lockdowns to contain the spread of the COVID-19 pandemic have posed many challenges for higher education globally, and India is no exception. The corona virus pandemic has resulted in the closure of schools and colleges across the country. Education has changed dramatically over the last three months, with a considerable rise of e-

learning, whereby teaching is executed remotely and on digital platforms. Consequently, catering to the needs of all stages of education, IMI took initiatives to start remote learning during lockdown times.
